БЛОК 7 — «НО Я НИЧЕГО НЕ ПОНИМАЮ В ИНВЕСТИЦИЯХ»

“I Would Invest. I Just Wouldn’t Know What to Choose.”

That’s where technology changes the equation.

A person can’t read every company report, follow every market change, compare thousands of data points and watch markets throughout the day.

Technology can process far more information than one person has time to review.

The graphic is split into two vertical panels. The left panel, titled 'YOU' in large white letters on a red background, shows a woman with a stressed expression, her hands on her head, sitting at a desk with a laptop, a coffee cup, and various papers. To her left is a list of life categories, each with an icon: 'Work' (briefcase), 'Family' (family group), 'Sleep' (bed with zzz), 'Bills' (dollar bill), and 'Life' (heart). The right panel, titled 'AI' in large white letters on a red background, shows a friendly-looking white robot sitting at a desk with a laptop.
